PHILOSOPHY

We believe in excellence in education for each student as best fits his/her needs, capabilities and aspirations. Opportunity for learning is basic to our democratic heritage, and becomes an individual right to be nurtured, protected and advanced through public education.

We commit ourselves to timely curricular and co-curricular selections which stress academic disciplines, moral objectives, physical development, social efficiency and productive citizenship.

We recognize and encourage community interests, needs and organizations which influence and compliment educational purposes.

We appreciate the critical need to learn how to learn in an ever changing society while retaining the traditional values and a respect for proper authority.

We stress a cooperative faculty and administrative relationship to provide a professional atmosphere for learning.

Finally, we believe in the individual worth of each student and in his future.

MISSION STATEMENT

It is the goal of Fairland Public Schools to provide the skills necessary for our students to become life-long learners and be able to adapt to an ever changing world.

VISION STATEMENT

Preparing students today to face the responsibilities of tomorrow.

EDUCATIONAL OBJECTIVES

In accordance with this stated, approved and adopted philosophy, the Board of Education, administration, faculty and students of the Fairland Public Schools have set forth the following objectives to help the individual have:

1. A command of the knowledge, skills, habits and attitudes that are essential for effective learning throughout life.
2. An understanding of man and society, and the skills necessary for effectiveness in communicating ideas and feelings.

3. A knowledge of self, understanding of one's characteristics and motivations, and appropriate development of individual abilities and interest.
4. A proficiency in recognizing and defining problems, thinking critically, objectively and creatively about them, and acting constructively toward their solution.

NON-DISCRIMINATION

The Fairland Board of Education is committed to a policy of non-discrimination in relation to race, religion, sex, age, national origin, alienage, disability, or veteran status. This policy will prevail in all matters concerning staff, events, student, the public, employment, educational programs and services, and individuals, companies, and firms with whom the Board does business.

**FEDERAL FAMILY EDUCATIONAL
RIGHTS AND PRIVACY ACT
(FERPA Policy)**

In an effort to comply with the Family Educational Rights and Privacy Act of 1974 (FERPA), Fairland Public Schools (I031) would like to notify parents and eligible students of their rights under FERPA.

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

*Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

*Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student then has the right to place a statement with the record setting forth his or her view about the contested information.

*Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34CFR § 99.31):

- School officials with legitimate educational interest;
- Other schools to which a student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific state law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

1. The right to inspect and review the student's education record.
2. The right to exercise a limited control over other people's access to the student's education record.

3. The right to seek to correct the student's education record; in a hearing if necessary.
 4. The right to report violations of FERPA to the Department of Health, Education and Welfare.
 5. The right to be informed about FERPA rights.
- Reproduction of the policy is possible upon request at a charge of 10 cents per page. The district will arrange to provide translations to non-English speaking parents in their native language.

**STUDENT RECRUITMENT
ACCESS TO STUDENTS AND DIRECTORY INFORMATION**

The Fairland Public School district restricts recruiting access to students and directory information. Directory information or class lists of student names, addresses, and/or telephone numbers shall not be distributed without the consent of the parent or legal guardian of the student or by the student age 18 or over. Military services representatives shall have access to student directory information unless such access is specifically denied in writing by the parent, legal guardian, or student age 18 or over.

This district will notify parents of the types of student directory information released. The notice will include:

1. An explanation of the parent's right to request that information not be disclosed without prior written consent;
2. Notice that the school routinely discloses names, addresses, and telephone numbers to military recruiters upon request, subject to a parent's request not to disclose such information without written consent; and
3. Notification on how the parent may opt out of the public, nonconsensual disclosure of directory information and the method and timeline within which to do so.

The notice will be provided to parents on an annual basis.

PARENTS GRADUATION REPLY FORM

Dear Parent or Legal Guardian:

Senate Bill 982 was passed by the Oklahoma Legislature and signed into law by Governor Henry on June 7, 2005. The laws requires eighth-grade students entering the ninth grade in the 2006-2007 school year to complete the college preparatory curriculum in SB 982, unless the student's parent or legal guardian approves the student to enroll in the existing state high school graduation requirements.

The options for the existing state graduation requirements and new college preparatory curriculum requirements are attached. Successful completion of either curriculum will result in accomplishment of a standard diploma.

Choosing the courses a student takes in high school is an important decision for you and your child. With your input, courses chosen for a student's career pathway can give him or her a head start on career and education success. A college preparatory curriculum is challenging and may help determine a student's future success in higher education and the world of work. Students who take a college preparatory curriculum designed to prepare them for both college and career have more opportunities. In addition, high school students who enroll in a career pathway at a technology center and meet eligibility requirements have the opportunity to earn college credit while in high school. This opportunity has been made possible through a new Cooperative Alliance between the State Regents for Higher Education and the Oklahoma Department of *Career Tech*.

Please complete the information below and return it to the office of your child's principal or school counselor prior to enrollment. **According to the law, if you do not select the existing state high school graduation requirements, your child will automatically be enrolled in the new college preparatory curriculum.** Please contact the school principal or school counselor if you have questions or need information on local graduation requirements.

Students are responsible for any material they check out. Lost books must be paid for by the student. Students who deface or destroy a book will either be fined or pay for the book. This will be at the librarian's discretion.

Students will be assigned one textbook per class. If that book is lost, stolen or defaced student must pay **replacement** cost before obtaining another book. If books are returned or found later student will be reimbursed for payment previously made.

Pursuant to the School Laws of Oklahoma, students shall have no reasonable expectation of privacy towards school administrators or teachers in the contents of a school locker, desk, or other school property. School lockers, desks, and other areas of school facilities may be opened and examined at any time and no reason shall be necessary for such search.

Senior-----Must have completed at least 18 units

Junior-----Must have completed at least 12 units

Sophomore---Must have completed at least 6 units

GRADES

Students are **not** to grade other students papers.

The following percentage grades will appear on report cards and in the student's permanent record:

90 – 100	-	A - Excellent
80 - 89	-	B - Above average
70 - 79	-	C - Average
60 - 69	-	D - Below average
Below 60	-	F - Failing

“I” - Incomplete: All incomplete work must be completed within two weeks after the close of the semester or the incomplete work becomes failure.

Grades will be available to parents. Report cards are given directly to students at end of each nine weeks, unless a stamped, self addressed envelope is provided to the principal's office.

Parents will be contacted regarding “Unsatisfactory Progress” reports during the fourth or fifth week of each grading period.

Should a student miss a nine week's or semester exam, it will be necessary to obtain approval from the attendance office in order to make it up. Approval may be granted for approved educational trips, illness (substantiated by a doctor's statement), or any other reason deemed unavoidable by the principal. Student grade checks may be obtained through the High School Principal's office. Students who fail a core subject will be required to repeat that course.

ZAP (Zeroes Aren't Permitted)

It is the goal of the teachers at Fairland to avoid recording a zero for assignments in which a student made no attempt to complete. However, there are circumstances that would require a teacher to record a zero, for example, work missed during an unexcused absence. The ZAP program will be followed in the Middle School. In the High School, classroom teachers are expected to notify parents by phone or email if students routinely miss assignments or run the risk of failing a class. Classroom teachers are expected to document such notifications. **The Middle School ZAP Plan is outlined below:**

ZAP Steps:

If a student is listed on the weekly Eligibility list, that classroom teacher is expected to assign the student ZAP until the student's grade is above 59%. ZAP will be conducted during Middle School PE/Athletics period. The student will have that hour to complete the assignment and turn it in for a grade. A student should not be assigned ZAP in a class unless their grade is below 60% in that class. Students who are continually ZAPPED may face other disciplinary actions such as In School Suspension or Saturday School.

SEMESTER TESTS

All students must take a Final Exam (2nd and 4th nine weeks).

Mid-Term testing will have the flexibility to be given during the testing week. The Final Exam schedule will be determined by the principal. All Exams will be authentic comprehensive. Students are required to take their semester tests at the scheduled times. Principals may use their discretionary powers to grant additional time for any scheduled semester exam.

All students must take a semester test, unless they are determined to be exempt due to attendance and grades. Nine week tests are optional. All semester tests will be worth 10% of semester grade.

HONOR ROLL

Honor Rolls for 9th through 12th grades will be published at the end of each semester. Students who have maintained a “B” average will be listed on the Principal’s Honor Roll (Physical Education, Competitive Athletics, Vocal Music, and Instrumental Music are considered activity classes and are not academic subjects; therefore, grades in these classes shall not be used to determine any Honor Roll eligibility).

Students who have an “A” average in all academic subjects will be listed on the Superintendent’s Honor Roll.

NATIONAL HONOR SOCIETY

Students will qualify for the National Honor Society providing they were enrolled at Fairland High School the previous semester, and provided they show no semester grade below a B for that previous semester, and providing they were enrolled in at least **five (5)** academic subjects the previous semester.

To be eligible for election to membership in this chapter, the candidate must have been in attendance for a period equivalent to one semester in this school.

Candidates eligible for election to this chapter must be members of the sophomore, junior, or senior class. Candidates eligible for election in the chapter shall have a GPA of 3.5 with no grade below a “C”. This Scholastic level of achievement shall remain fixed, and shall be the required minimum scholastic level of achievement for admission to candidacy. All students who can rise in scholarship to or above such standard may be admitted to candidacy in membership. Their eligibility shall then be considered on their service, leadership, and character.

STATE HONOR SOCIETY

Members of the State Honor Society are selected as the top 10% of the student body during the last semester of the preceding year and the first semester of the current year.

The student must have been a member of the Fairland Student Body for those semesters. The students with the highest number of points using the weighted scale in grades 9 – 12 will make up the Honor Society. The weighted scale is each core class above those required for graduation. The class will be weighted by one-tenth of a point per achievement level. The core classes include Math, Science, History and English. Any concurrent enrollment class will be weighted at the equal value of a corresponding class at Fairland High School.

PROFICIENCY BASED TESTING

Students wishing to work above their traditional grade level will need to make an appointment with the counselor (prior to the new school year and the end of the second semester) to take the proficiency test. Students must earn an average of 90% or better on the test to test out of that level.

Students entering from a non-accredited school or from home schooling will be required to take a proficiency test for placement.

DROPPING A SUBJECT

The proper procedure for a student to drop a subject is to get special permission from his or her parents, principal, teacher and counselor. Subjects cannot be dropped more than five days after the semester begins, unless a parent, teacher, principal and counselor conference is held and all agree to a decision reached. A student who repeats a class taken previously shall have both grades entered on his/her high school transcript. Only the higher grade will be included when computing a student's grade point average.

PARENT-TEACHER CONFERENCE

Parents are encouraged to come for conference with the school faculty. Conferences should be scheduled at 7:45 a.m., after school or during the teacher's planning period. The principal's and superintendent's offices are open to parents at all times. Parent Teacher Conferences will be scheduled for each semester.

TRANSPORTATION

All buses used by the Fairland Schools meet State Department of Education requirements and operate in cooperation with their regulations.

Students who ride the school buses to and from home and on school trips, should be careful about loading and unloading. Always wait for the bus to STOP.

Safety is stressed at all times. Students are urged to regard the bus as a classroom as far as conduct is concerned; the driver is to have absolute authority and is expected to maintain discipline in order to prevent serious accidents.

No student is to depart from the bus until it reaches the school. Students must have permission from the principal's office to change buses or get off the bus at points other than home or school.

BUS RIDER RULES

Riding a school bus is a privilege and the privilege may be removed for not abiding by the bus rider rules.

Previous to loading students should:

1. Be on time at the designated bus stops -- keep the bus on schedule.
2. Stay off the road at all times while waiting for the bus.
3. Wait until the bus comes to a complete stop before attempting to enter.
4. Be careful in approaching bus stops.
5. Do not move toward the bus at the school loading zone until the bus has been brought to a complete stop.
6. Respect people and their property while waiting on the bus.
7. Receive proper school official authorization to be discharged at places other than the regular bus stop.

While on the bus students should:

1. Keep all parts of the body inside the bus.
2. Refrain from eating and drinking on the bus.
3. Refrain from the use of any form of tobacco, alcohol, or drugs.
4. Assist in keeping the bus safe and clean at all times.
5. Remember that loud talking and laughing or unnecessary confusion diverts the driver's attention and may result in a serious accident. (The life you save may be your own.)
6. Treat bus equipment as you would valuable furniture in your own home. Damage to seats, etc., must be paid for by the offender.

4. Violations will not be tolerated. Take responsibility for your driving privilege.

STUDENT ATTENDANCE INFORMATION

Absence is the cause of many of the failures in school. Unless your health forbids or unless some serious emergency arises at home, you should be at school. Parents or guardians of students missing four or more days or parts of days, including tardiness, during any four week period will be notified, a copy of notification may be sent to District Attorney's office in an attempt to keep truancy at a minimum. Responsibility for making up work lies entirely with you.

You should make appointments with your teachers to ascertain just what you are to make up. You assume the entire burden of getting this work done and handed in to your teachers. Punctuality and regular attendance are essential to success in school and later on the job. **BE ON TIME AND IN YOUR CLASSES EACH DAY!**

ATTENDANCE, ABSENCE & MAKE-UP WORK

The school law provides that all boys and girls between the ages of 5-18 must attend school unless physically or mentally handicapped or unless they have finished high school. The attendance officer will check all absences and if necessary file a case against the parent or guardian of any child who is habitually absent.

In order for a student to receive a passing grade, he must be in attendance 90 percent of the semester period. If absences of a student exceed **EIGHT** absences in a single class, that student will not receive a passing grade. Absences because of school activities, illness substantiated by a medical doctor's or dentist's statement, religious observance of a holiday or those deemed unavoidable by the principal will not be counted against the 90 percent attendance requirement. If a student goes to a medical doctor or dentist, they must have a note from that physician/dentist office when the student returns to school or no medical absence will be granted. Extended illness such as chicken pox, mononucleosis, etc. will also be marked medical upon review of the building principal. Death in family will not count toward 90 percent attendance requirement.

For each day absent the student will be allowed one day to make up work missed. For each day absent due to scheduled school activities, the student needs to make prior arrangements and the work is due upon their return.

A student who has not been in attendance 90 percent of the grading period and/or has not made up the work missed may receive an “F”. After the **FIFTH** absence students must have a doctor's note or it will be considered unexcused.

TYPES OF ABSENCES

Absences are classified according to the following criteria.

A. **ACTIVITY ABSENCE:** An official absence sanctioned by the school. Make up work is allowed.

Ten Day Rule: In accordance with the policy of the Board of Education, the following shall govern student attendance:

1. School Activity: These are extra-curricular activities, whether sponsored by the school or outside agency, which remove the student from class for more than half of a class period.
2. The total number of student activity absences allowed in any one class period without permission from the Internal Review Committee, shall be ten.
3. Once a student has had ten activity absences from any one class period, the student must be reported to the Principal’s Office for consideration for further absences.

The Internal Review Committee shall be appointed by the Board on an annual basis.

The criteria for counting beyond the ten day absence limit shall be as follows:

1. A student must have a letter grade of a “C” or better in the subject he/she wants to miss. The policy of the Board of Education does not set a maximum number of activity absences to be allowed per student. However, unreasonable requests upon the committee for exemptions will not be considered. Teachers shall have the following responsibilities:

Activities excluded from the ten day rule are the following:

1. Class meetings, assemblies, field trips involving the class period only, and others such as State and National levels of school-sponsored contests. The Board of Education shall review annually the activity calendar.

B. **EXCUSED ABSENCE:** All Excused absences must be verified by parent/guardian during the absence by phone or immediately upon return to school. Examples of an excused absence are illness, court appearances, injury, or funeral attendance. A maximum of five(5) absences may be excused by parent notification only. Absences beyond five per semester will require professional notification/documentation (i.e., doctor’s note, court docket, etc.)

C. **UNEXCUSED ABSENCES:** Includes any absences that do not fall into the EXCUSED category. **WORK CAN BE MADE UP FOR UNEXCUSED ABSENCES, BUT CREDIT GIVEN WILL BE UP TO THE DISCRETION OF THE TEACHER.**

STATE LAW REQUIRES THE SCHOOL TO NOTIFY THE DISTRICT ATTORNEY IF A STUDENT HAS FOUR UNEXCUSED ABSENCES and/or EIGHT TARDIES IN A FOUR-WEEK PERIOD, OR 10 UNEXCUSED ABSENCES/TARDIES IN A SEMESTER.

ATTENDANCE AWARDS

Pupils who have not been absent for the entire year and were enrolled the first day of school will be given attendance certificates.

ADMITS

If a student is absent from school, it will be necessary to obtain an admit from the attendance office between 8:00 – 8:15 a.m. on the day he/she returns to school. In order to obtain an admit, it is necessary the attendance office receives a phone call or note from one of the parents or guardians in regard to the absence. The office will issue an admit slip, showing whether the excuse is accepted or rejected; that is, excused or unexcused. If the absence is necessitated due to an illness requiring a doctor's appointment, the student should provide documented proof. Failure to pick up admit at the required times will result in the student receiving detention.

TARDY

A student is considered tardy to class if he/she is not in his/her classroom and seated when the tardy bell rings. Teachers should use their discretionary powers to determine if a student has a valid reason for being late. If another teacher or the office has detained the student, then a note should accompany that student indicating date, time and individual who detained the student. **Detention will be assigned on the third tardy and an additional detention assigned for every tardy thereafter. Excessive tardies may result in referral to truancy court. Students who are excessively tardy without good reason shall be assigned additional discipline.**

DETENTION

Students missing detention will make up detention time on a two-to-one ratio. If necessary, detention may be assigned for Saturday morning. (Saturday School)

Parents of students riding the bus will be responsible for arranging transportation for those students receiving detention. When assigned to detention the student must report to the class on time, remain seated for the duration of the period, and bring school material to work on. If a student is in attendance at school on the day assigned to detention, he/she must report to detention class. The class was created to avoid some suspension, but if the student does not comply with the detention rules he/she will face suspension.

PERMIT TO LEAVE SCHOOL

A student who leaves the school at any time during the day must check out at the office with the permission of the principal. If he/she returns before school is dismissed, he/she must check in at the office. Parents must phone or come in person to check student out, **notes will be accepted but subject to verification at the discretion the principal.** The only excused absences for checking out will be going to doctor, dentist or death in family, or religious observance or by verbal confirmation by parent or legal guardian. If student becomes ill, the principal's recommendation will be taken as to need to check out and parents will be notified. Any student leaving school without checking out will be placed in a.m./p.m. detention, Saturday detention, or In-School Intervention according to the Fairland High School Discipline Policy. Students must sign out in the main office before leaving campus even if a parent has notified the office. After checking out through the office, students may leave the building at the entrance/exit by the principal's office; through the entrance/exit by the superintendent's office; the entrance/exit of the Junior High with a parent or guardian. All other exits are for emergency use only and should not be used unless supervised by school personnel.

TRANSFER-IN STUDENTS FROM ANOTHER STATE

Students moving to Oklahoma from another state and enrolling in a senior high school (10th, 11th, or 12th grades) may graduate without Oklahoma History and/or World History if the course is not taught in the senior high school, or if the out-of-state student is unable to take the course due to the scheduling of classes.

PERMANENT WITHDRAWAL

A student moving out of the Fairland School District is required to withdraw formally with parent/guardian signing withdrawal forms. Withdrawal forms originate in the counselor's office. A copy of the final form and a copy of the student's immunization record will be provided the student and his transfer school upon its completion, payment of dues or fees, and proof that all text and library books have been returned.

DISCIPLINE POLICY

Students are expected to conduct themselves orderly during the school day, on extracurricular trips, and other school activities. Students are responsible for their behavior. All disciplinary action will be recorded in the students' personal files for future reference.

All certified employees of Fairland Public Schools shall have the same right as a parent or guardian to control and discipline students during the time they are on school premises or in transit to and from school and authorized school functions. Teachers have the authority to administer discipline according to the assertive discipline plan.

Before being disciplined, the student will be told the reason and will be given an opportunity to respectfully give his/her version of the incident. A brief written report of the disciplinary action shall be placed in the student's file after the discipline is administered. The report will state the date, the offense, and disciplinary action taken.

If the parent or guardian does not wish for their child(ren) to receive corporal punishment at school, they must have documentation on file in the principal's office. Often there are medical or other reasons why a student cannot be paddled. The parent's wishes will be respected.

Our goal at Fairland Public Schools is to help each child get the best education possible. In order to guarantee that all students receive the best education possible, we have established a discipline plan that will be in effect at all times. This is a very positive plan which rewards those students who behave appropriately. The plan also has discipline steps for those who do not behave themselves. When in the classroom, the student must comply with the following rules:

- A. Follow directions of the teacher.
- B. Come to class with all required materials.
- C. Be in your assigned seat ready to work when the tardy bell rings.
- D. Keep hands, feet, books, and other objects to yourself.
- E. No eating food and drinks in class except with approval of principal and classroom teacher.
- F. Raise hand and wait to be recognized before speaking.

SEVERE CLAUSE

In cases of severe misbehavior such as: fighting, rude gestures, vulgar language, rude comments, open defiance, destroying property, truancy, stealing, use or possession of drugs, alcohol, or tobacco products, weapons, or stopping the class from functioning, have in their possession matches, lighters, or pocket knives: The student will be sent immediately to the principal.

GENERAL OFFICE DISCIPLINE PROCEDURE

- First Offense:** The student will be assigned two 30-minute detentions. Parents will be notified.
- Second Offense:** Four detentions will be assigned. Parents will be notified.
- Third Offense:** Saturday detention will be assigned 8:00 A.M. - 12:00 noon. Parents will be notified.
- Fourth Offense:** Parents will be notified that the student will be suspended from school one to three days.
- Fifth Offense:** Parents will be notified that student will be suspended from school for up to five days.
- Sixth Offense:** Parents will be notified that student will be suspended from school for up to ten days.
- Seventh Offense:** Parents will be notified that student will be suspended for up to two semesters. Length of suspension will be determined by the administration.

The general office procedure steps will apply to all infractions of name and three warnings in one hour or severe clause, unless the administrator's judgement determines the situation requires more or less discipline. Principals are permitted to make adjustments in the discipline policy to fit individual school needs. (Severe clause examples: Open defiance, fighting, destroying or defacing property, truancy, skipping, stealing, drug and/or alcohol use, smoking, weapons, etc..) The office procedure steps are cumulative through-out school year.

When a student accumulates twelve (12) served or unserved detentions, the student may be suspended from school for a period of one to three (1-3) days. This suspension will not eliminate the un-served detentions which have been accumulated by the student.

NOTIFICATION TO PARENTS

When a teacher assigns detention, the teacher shall notify student, principal, and parents of the assigned detention. When the detention is assigned through the principal's office, the principal is responsible for notifying the student and the parent. In all cases of detention, the student must sign the official notice, thus acknowledges his/her awareness of the assigned detention. All dates for serving detention will be assigned through the office.

DETENTION HALL

Students must serve their detention the day it is assigned for. Students must report to detention with paper, pencil, and work to do. Afternoon Career-Technology students must serve their detention in the morning at 7:30 – 8:00 a.m.

In the event there is no school on the assigned detention date, the detention will automatically be served on the next school day. If a student has an excused absence on the assigned day, he/she simply will make it up on the next available date. If a student is not excused and misses detention, he/she will be placed on the severe clause and will receive two detentions.

REFUSAL OF DISCIPLINE

A student may be disciplined by any teacher at any time. Students are expected to show the same respect to ALL school personnel.

When there is a disagreement between the student and the teacher or principal, the student may be suspended until he/she returns with his/her parent or guardian the next day (Overnight Suspension)

Any student who refuses to receive discipline, as prescribed by a teacher or administrator, shall be dismissed from school for a period of two days. For any second offense of this nature, the student shall be

dismissed for five days. If the student misses assigned tests or work, he/she will **not** be allowed to make up that work and will receive a zero for the work missed.

This suspension is in addition to and not in lieu of the initial discipline. At the discretion of the administration, the first two days of suspension may possibly be waived when the parent accompanies the student back to school for a conference and a suitable solution is reached.

SUSPENSION

The principal shall have the authority to suspend any student who is guilty of any of the following acts while in attendance at Fairland Public Schools, in transit by school transportation, under school supervision to or from school and functions authorized by the school district:

No later than 72 hours after the actual removal of the student from school, the student and his/her parents must be given an opportunity to be present at a hearing before the suspension committee. The committee will determine if a suspension should be imposed. Such a hearing, which is not a judicial proceeding, must provide at a minimum:

Students who have been suspended for the remainder of a semester, or more, may petition the superintendent for reinstatement. The superintendent may, in his/her discretion, schedule an informal hearing with the concerned principal. At the hearing, the student may present evidence of attitude or behavior modification which would support reinstatement. The superintendent and the principal may recommend the reinstatement of the student or denial of reinstatement and submit a written report of the informal hearing to the board of education. The board shall take whatever action it deems appropriate.

A suspension appeals committee is hereby established which will consist of three administrators and two teachers. The members of the committee will be appointed by the superintendent.

SUSPENSION POLICIES

Before a student is suspended out-of-school, the principal shall consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another classroom, or in-school detention. If alternative in-school placement options are considered inappropriate, the principal must provide written justification which will become part of the student's permanent record. educational progress until the student is readmitted to school. The educational plan will be assembled by the teachers and principal.

The parent/guardian must present all evidence of compliance with the educational plan. This would include, but not limited to assignments, completed work, projects assigned and completed, test completed and graded, etc. Copies of all work plus a list of assigned activities will be included.

This policy applies to out-of-school suspension unless it is suspension for possession of a dangerous weapon or a controlled substance. ACCEPTABLE COMPUTER USE POLICY

Fairland Schools has the ability to enhance education through the use of computers. Communication can be expanded through electronic mail and the Internet. Internet allows a way to research information in a way that is not offered in basic instructional classroom settings. Acceptable uses of the network and Internet are activities resulting from specific tasks and assignments that support learning and teaching and promote the district's mission and goals.

The Internet is a privilege, not a right. Inappropriate use will result in the educational tool being revoked, denied, or suspended. The teachers and principal will deem what is inappropriate use and their decision is final.

It is important that the staff, students, and parents read the ethic code, because **misuse will result in discipline actions being taken.**

Both the student and the parent/guardian sign the Application Page before the student will be allowed on a computer at school.

1. User will not waste supplies such as paper, printer ribbons, diskettes, etc.
2. User will use only "school-appropriate" language and information.
3. User will use only "school-appropriate" Internet sites. **Inappropriate use of ANY internet device, school or personal during school hours, will result in loss of privileges and/or discipline.** E-mail is for authorized programs supervised by teachers.
4. Do not use computer disks from home in any school computer. The school will furnish disks.
5. Students are not permitted to change configurations. (Screen savers, wallpaper, shortcuts, etc.)

FAIRLAND PUBLIC SCHOOLS SECTION 504 PROCEDURES

The Fairland School District recognizes its responsibility to children who are or may be "disabled" under section 504 of the Rehabilitation Act of 1973 ("Section 504") or the Individuals with Disabilities Education act (the "IDEA"). The Fairland school district also recognizes that Section 504 potentially encompasses a larger segment of the student population than the IDEA due to 504's broad definition of the term "disability". To ensure that all School District employees know what to do when they suspect that a student's difficulties in the regular education environment are the result of a disability, the Fairland School District adopts the following definitions and procedures.

Under Section 504, an "individual with a disability" is a person who (a) has a physical or mental impairment, which substantially limits one or more major life activities, (b) has a record or history of such an impairment or (c) is treated by others as having such an impairment. A "physical or mental impairment" means (a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (b) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, specific learning disabilities. The types of "major life activities" referred to (a) are caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, working and learning. A "qualified individual with a disability" is an individual with a disability who is (a) of an age during which non-disabled persons are provided educational services or (b) of an age during which Oklahoma law or the IDEA requires educational services for disabled persons.

The Fairland School District must provide every "Qualified individual with a disability" a free appropriate public education. A "free" education means the provision of educational and related services without cost to disabled students or their parents except those fees that are charged to all students. An "appropriate" education means the provision of regular or special education and related services that are designed to meet the individual educational needs of disabled students.

If a school district employee suspects that a student may be a "qualified individual with a disability", he or she will advise the designated building representative. The building representative will

convene a meeting that includes persons knowledgeable about the child, the meaning of evaluation data and placement options. The team need not include the child's parent or guardian. The team will try to determine, based on available data, whether the child is or is not disabled. In making this decision, the team will draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, the child's physical condition, social or cultural background and adaptive behavior. All information will be documented. The team may determine that it has insufficient information upon which to base a decision. In that case, the team will complete a referral for evaluation and a parent permission form to send to the parent.

If the team determines that a medical evaluation is necessary to determine the existence of a physical or mental impairment (or the appropriate placement or program for a disabled student), the team will include that evaluation on its referral. If the team refers the student for a medical evaluation, the School District must pay for the evaluation. On the referral, the team will be specific about the scope of the evaluation to avoid physician referrals for additional medical evaluations that may cause disputes

over payment responsibility. If the team determines that a medical evaluation is unnecessary and the parent or guardian disagrees or if the parent is dissatisfied with the results of a medical evaluation obtained by the School district, he or she can obtain an independent evaluation and request an administrative due process hearing to seek reimbursement from the School District.

If the team determines that a child is or may be disabled, it will also discuss modifications that can be made in the regular education environment to address the child's disability. These modifications can include but are not limited to schedule and assignment modifications are appropriate for the child, the team will complete an "accommodation plan", listing the modifications to be provided, the person(s) responsible for implementing each component of the plan and the starting and ending dates for each component. The plan will be sent to the parent with a copy of the attached form letter and list of parental rights. If the team has identified a need for further evaluation, it will also include the completed referral and parent permission form. Following completion of the evaluation, the team will follow the procedures ordinarily used by the school district to review the evaluation results.

The team will implement the accommodation plan immediately, even if it also referred the child for evaluation. Modifications made in the regular classroom environment do not constitute a special education placement, so the child parent or guardian need not approve the plan. However, the parent does have the right to notice of the child's identification as a disabled or potentially non-disabled person and to request an administrative due process hearing to contest the child's identification. The parent also has the right to review the accommodation plan and to request an administrative due process hearing to contest the plan if the parent believes that it does not provide a free appropriate public education. The team will review the accommodation periodically and will advise the parent or guardian in writing of any changes in the plan.

The Fairland School District must educate disabled students and provide them nonacademic and extracurricular services and activities with non-disabled students to the maximum extent appropriate to the needs of the disabled student. The term "extracurricular services and activities" includes meals, recess, counseling, physical recreational athletics, transportation, health services, recreational activities and school-sponsored special interest groups or clubs. The team may determine that a disabled student cannot receive a free appropriate public education just through modifications in the regular education environment. However, the team can remove a disabled student from the regular education environment only after notice to the parent and only if it can demonstrate that the child cannot be educated

satisfactorily in the regular education environment using supplementary aids and services. For example, the team may determine that regular classroom placement is inappropriate to the needs of a disabled student because he is a danger to himself or others or because he is unduly disruptive in the regular classroom environment and because the danger or disruption cannot be adequately minimized by using supplementary aids and services. In all cases, the team will thoroughly document the reason(s) for the removal of a disabled student from the regular education environment. The child's parent or guardian has the right to notice of the child's proposed placement in special education (and to other significant changes in his or her placement) and to request an administrative due process hearing to contest the proposed placement (or significant change in placement).

If the team proposed special education placement for a disabled student, it will follow the procedures used by the school district for students identified as disabled under the IDEA, including its IEP team, annual review and evaluation procedures. **(SEE 504 FORMS BELOW)**

POLICY CONCERNING PROCEDURAL SAFEGUARDS PROVIDED UNDER SECTION 504 OF THE REHABILITATION ACT OF 1973

The School District will provide the procedural safeguards identified in this policy whenever a qualified individual with a disability or his or her parent or guardian requests an administrative hearing under section 504 of the Rehabilitation Act of 1973 ("Section 504") regarding the identification, evaluation or educational placement of the qualified individual with a disability.

The School District will request that the Oklahoma state Department of Education ("SDE") appoint a hearing officer to resolve all issues raised by the hearing request, whether those issues involve only Section 504 or both section 504 and the Individuals with Disabilities Education Act. The School District or its legal representative will also mail the person who requested the hearing the list of due process rights and hearing procedures attached hereto. The School District will afford that person the listed due process rights, and the hearing will be conducted in accordance with the listed hearing procedures.

Any party aggrieved by the hearing decision may request an appeal by sending written notice of his or her intent to appeal to SDE. If the notice is timely, the School District will request the SDE appoint an appeal officer to review the issues raised by the notice. If the appeal officer determines that an appeal hearing is necessary to resolve the issues, the listed hearing procedures will be followed.

If SDE will not appoint a hearing officer to hear all the issues raised by the hearing request, the School District will employ an impartial third party to hear the issues. Any party aggrieved by the hearing decision rendered by a hearing officer appointed by the School District may request an appeal by sending written notice of his or her intent to appeal to the School District. The notice must be received by the School District within 30 calendar days after the appealing party receives the initial hearing decision. If SDE will not appoint an appeal officer to review all issues raised by a timely notice, the School District will employ an impartial third party to review the issues. The School District also has the right to request a hearing under Section 504 regarding the identification, evaluation or

educational placement of a qualified individual with a disability. Whenever the School District request such a hearing, the School District or its legal representative will mail the parent or guardian of the qualified individual a copy of the list of due process rights and hearing procedures attached hereto, and the School District will follow the procedures identified in this policy.

DUE PROCESS AND HEARING PROCEDURES

Due process safeguards have long been a strong component of IDEA. These safeguards provide students with disabilities and their parents with extensive rights. Schools that serve students under 504 are also required by Section 104.36 to establish and implement procedural safeguards related to the identification, evaluation, or educational placement of children. These safeguards must include

- Notice
- An opportunity for parents or guardian of the student to examine relevant records,
- An impartial hearing, and
- A review procedure

One of the first things schools need to do when dealing with a child who has been referred for 504 services is to inform parents of their procedural rights. Section 504 regulations describe the following rights for parents and students:

- Right to be informed by the district of specific due process rights
- Right for the child to have access to equal academic and non-academic school activities
- Right for the child to have an appropriate education in the least restrictive setting, which includes accommodations, modifications, and related services
- Right to notice regarding referral, evaluation, and placement
- Right for the child to have a fair evaluation conducted by a knowledgeable person(s)
- Right to an administrative appeals process
- Right to examine and obtain copies of all school records

Unlike IDEA, Section 504 does not require consent prior to an initial evaluation or for the accommodation plan. However, it is good practice for the school to request such permission. On the other hand, notice is required. The best advice for schools related to notice and consent is to follow the procedures of IDEA. It is significantly better for schools to do more regarding due process than is required than less. If complaints are filed by parents, schools fare much better if they have gone beyond procedural safeguard requirements and have exhausted efforts to gain parental involvement and consent than if they just meet the minimum requirements.

Complaints under Section 504 have to be filed within 180 days of the reputed violation of the act. Complaints are filed with the Department of Education and should be sent to the Office for Civil Rights of the Department of Education in the region where the school district is located.

The complaint does not have to be on any particular form, but should include the following information (Underwood & Mea, 1995):

- Name, address, and telephone number of the complaining party;
- The basis for the complaint, such as disability discrimination
- Names of who has been affected by the discrimination;
- Name and address of the discriminating agency, if known;
- The approximate date of the discriminatory conduct;

- A brief description of what happened;
- Signature of the complaining party.

An administrative investigation follows the complaint.

Unlike IDEA, which requires administrative action before court action, the majority of courts permit individuals to bring actions related to a 504 complaint directly to the court (Underwood & Mead, 1995). However, if parents file a complaint regarding section 504 services, the school district must have in place an impartial hearing procedure similar to the one required by IDEA. This opportunity must be afforded parents if they choose an administrative appeal over immediate court action.

Unlike IDEA, Section 504 regulations do not contain extensive, specific requirements for the hearing process; rather, 504 requires that hearings should be *reasonable*. OCR makes the ultimate determination on whether the hearing process is reasonable.

An IDEA hearing officer may be able to resolve a 504 dispute as part of an IDEA problem; however, if this cannot be done, the school must have another system in place to handle 504 complaints (Underwood & Mead, 1995).

When at all possible, schools should avoid Section 504 complaints and due process hearings.

Regardless of the outcome of the complaint, schools and families have to work together to try to provide an appropriate education to children.

Unfortunately, most complaints and hearings exacerbate adversarial relationships between school personnel and family members, making it even more difficult to meet the needs of the child in the future.

There are several things that schools can do in an attempt to avoid complaints and hearings. These include (Podemski, et al., 1995):

1. Focus on the child. Make an attempt to provide appropriate programs for children. Parents must attempt to be objective in reviewing the child's program.
2. Involve parents. Have a positive attitude about involving parents; make extra efforts to get parents involved in programming decisions. Parents should attempt to get involved with school personnel prior to the complaint or hearing.
3. Be sure that assessment does not discriminate and addresses the student's needs.
4. Document everything. Proper documentation helps all parties keep events in perspective.
 - Document phone calls
 - Keep copies of letters and notices
 - Make a record of face-to-face conversations
 - Send important material by registered mail
5. Attempt to mediate. If a disagreement can be worked out, it generally is better for all parties, especially the child.

Regardless of efforts to prevent complaints and hearings, they often occur, in these instances, there are several things that should be done in preparing for a hearing. These include (Podemski, et al., 1995):

1. Hire an attorney. Schools generally fare better in appeals procedures when they have attorneys representing their views.
2. Determine the key issues in the case. Hearings can deteriorate too many side issues without an effort to focus on the key points of the case.
3. Review Section 504 and other regulations. A review of regulations can help schools understand their responsibilities related to a specific case.

4. Understand the ground rules. School personnel must understand how hearings are conducted and be prepared to present their case in the best manner possible.
5. Prepare for the hearing. School personnel need to prepare for the hearing by organizing their case and adequately preparing their witnesses.
6. Anticipate the other party's case. Schools will do better in hearings if they understand the arguments that will be brought forth by the other party so they can be prepared to respond to various issues.

Hearing preparation is an extremely important part of the impartial hearing process. During preparation for a hearing, school personnel may realize that the legal issues support the parents' point of view and therefore attempt to mediate the conflict. Without this realization, a great amount of time, effort, and resources may be wasted.

Of course, the primary reason for preparation for an impartial hearing is to enable the school to be prepared to present its best case. There are some situations where the intent of 504 is not best served simply because the school was not prepared and did not present a sound case to the hearing officer.

The table on the following page depicts a checklist that school personnel can use in preparation for a 504 hearing.

Table 1
Checklist for Hearing Preparation

1. Has an attorney been retained?
2. Does the attorney have knowledge concerning special education and Section 504?
3. Has the attorney been involved in previous hearings or litigation related to Section 504?
4. Has the attorney been briefed on the current situation?
5. Have the key issues in the case been determined?
6. Can your position be supported by regulations or previous litigation?
7. Have potential witnesses been identified?
8. Have potential witnesses been involved in planning for the hearing?
9. Has the attorney been provided all of the documentation related to the case?
10. Have all due process safeguards been followed?
11. Do both parties have adequate documentation?
12. Has the attorney had the opportunity to meet with all witnesses and review questions?
13. Has the opposite party's case been anticipated?
14. Are rebuttal points prepared for the other's case?
15. Have copies of witness lists and written evidence been shared with the opposite party?
16. Have all reasonable attempts been made to resolve the issues prior to the hearing?

Just as with IDEA, due process is an important component in section 504 services. School personnel must ensure that they understand the due process requirements of Section 504 and that they follow the appropriate procedures. Failure to adequately comply with the due process requirements of Section 504 can result in inappropriate services for children and can also open up school districts for complaints and litigation.

Harassment And Bullying

It is the policy of this school district that threatening behavior, harassment, intimidation, and bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Threatening behavior, harassment, intimidation, and bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school.

Harassment is intimidation by threats of or actual physical violence; the creation by whatever means of a climate of hostility or intimidation; or use of language, conduct, or symbols in such manner as to be commonly understood to convey hatred, contempt, or prejudice or to have the effect of insulting or stigmatizing an individual. Harassment includes but is not limited to harassment on the basis of race, sex, creed, color, national origin, religion, marital status, or disability.

As used in the School Bullying Prevention Act, “harassment, intimidation, and bullying” means any gesture, written or verbal expression, electronic communication or physical act that a reasonable person should know will harm another student, damage another student’s property, place another student in reasonable fear of harm to the student’s person or damage to the student’s property, or insult or demean any student or group of students in such a way as to disrupt or interfere with the school’s educational mission or the education of any student. Harassment, intimidation and bullying include, but are not limited to, gestures or written, verbal, or physical acts, or electronic communications. Such behavior is specifically prohibited.

In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents.
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student’s seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student’s behavior
10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency
13. Suspension
14. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities and/or class trips.

Prohibiting Harassment, Intimidation and Bullying

Investigation Procedures

The following procedures will be used by any person for the filing, and resolution of a reported incident of harassment, intimidation, bullying, or threatening behavior. The procedures are to be followed by the administration of the school district in an effort to determine the severity of the incident and the potential to result in future violence.

Definitions

1. "Harassment, intimidation, and bullying" means any gesture, written or verbal expression, electronic communication, or physical act that a reasonable person should know will harm another student, damage another student's property, place another student in reasonable fear of harm to the student's person or damage to the student's property, or insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Harassment, intimidation, and bullying include, but are not limited to, gestures, written, verbal, or physical acts, or electronic communications.

"Electronic communication" means the communication of any written, verbal, or pictorial information by means of an electronic device, including, but not limited to, a telephone, a cellular telephone or other wireless communication device, or a computer.

"Threatening behavior: means any pattern of behavior or isolated action, whether or not it is directed at another person, that a reasonable person would believe indicates potential for future harm to students, school personnel, or school property.

Procedures

The procedure for investigating reported incidents of harassment, intimidation, and bullying or threatening behavior, is as follows:

1. The matter should immediately be reported to the building principal. If bullying involved an electronic communication, a printed copy of the communication as well as any identifying information such as email address or web address shall be provided to the building principal. As much detailed information as possible should be provided to the building principal in written form to allow for a thorough investigation of the matter.
2. Upon receipt of a written report, the building principal shall contact the superintendent and begin an investigation to determine the severity of the incident and the potential for future violence.
3. If, during the course of the investigation, it appears that a crime may have been committed the building principal and/or superintendent shall notify local law enforcement and request that the alleged victim also contact law enforcement to report the matter for potential criminal investigation.

4. If it is determined that the school district's discipline code has been violated, the building principal shall follow district policies regarding the discipline of the student.

5. Upon completion of the investigation, the principal or superintendent may recommend that available community mental health care options be provided to the student, if appropriate. This may include information about the types of support services available to the student bully, victim, and any other students affected by the prohibited behavior. If such a recommendation is made, the administration shall request disclosure of any information that indicates an explicit threat to the safety of students or school personnel provided the disclosure of information does not violate the provisions or requirements of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, Section 2503 of Title 12 of the Oklahoma Statutes, Section 1376 of Title 59 of Oklahoma Statutes, or any other state or federal laws relating to the disclosure of confidential information.

Dear Parent or Guardian:

On June 11, 2012 the Fairland Board of Education in a regular meeting approved a revision of the school district's policy regarding bullying and harassment. You are entitled to a copy of the policy. If you would like to receive a copy of the policy, please contact Mark Alexander at the school central office.

HAZING

It is the policy of this school district that no student or employee of the district shall participate in or be members of any secret fraternity or secret organization that is in any degree related to the school or to a school activity. No student organization or any person associated with any organization sanctioned or authorized by the board of education shall engage or participate in hazing.

For the purposes of this policy, hazing is defined as an activity which recklessly or intentionally endangers the mental health or physical health or safety of a student for the purpose of initiation or admission into or affiliation with an organization sanctioned or authorized by the board of education.

Any hazing activity upon which the initiation or admission into or affiliation with an organization sanctioned or authorized by the board of education is conditioned, directly or indirectly, shall be presumed to be a forced activity, even if the student willingly participates in such activity.

This policy is not intended to deprive school district authorities from taking necessary and appropriate disciplinary action toward any student or employee. Students or employees who violate this policy will be subject to disciplinary action which may include expulsion for students and employment termination for employees.

A copy of this policy will be furnished to each student and available to every teacher in this school district.

(70-24-102)

MOMENT OF SILENCE

It shall be the policy of the Fairland Board of Education that no sectarian or religious doctrine shall be taught or inculcated into the curriculum or activities of the school. However, those students who wish to do so may participate in voluntary prayer so long as it is during non-instructional time and does not interfere with the rights of other students.

Each school site within the district shall observe one minute of silence each day for the purpose of allowing each student to meditate, pray, or engage in any other silent activity that does not interfere with, distract, or impede other students in the exercise of their choice. All school personnel are to afford these options to all students, who will individually make the selection as to which of these behaviors they will engage in during the moment of silence. These options will also be included in the student handbook.

The moment of silence will be held at the start of the school day.

If the district or a school employee is sued for providing a moment of silence to students, the district must notify the Attorney General within five (5) days. The Attorney General will provide legal representation to the district or employee named as a defendant in an action related to this statutory requirement.

STUDENT DRUG TESTING PROGRAM AND EXTRACURRICULAR ACTIVITIES

The Fairland Board of Education, in an effort to protect the health and safety of its students from illegal and/or performance-enhancing drug use and abuse, thereby setting an example for all other students of the Fairland Public School District, has adopted the following policy for drug testing of students participating in extracurricular activities.

Purpose and Intent

It is the desire of the board of education, administration, and staff that every student in the Fairland Public School District refrains from using or possession illegal drugs. The administration and board of education realize that their power to restrict the possession or use of illegal drugs is limited. The sanctions of this policy relate solely to limiting the opportunity of any student determined to be in violation of this policy to participate in extracurricular activities. This policy is intended to complement all other policies, rules, and regulations of the Fairland Public School District regarding possession or use of illegal drugs.

Participation in school-sponsored extracurricular activities such as interscholastic athletics at the Fairland Public School District is a privilege. Students who participate in extracurricular activities are respected by the student body and are expected to hold themselves as good examples of conduct, sportsmanship, and training. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs. Additionally, this school district is contracted to follow the rules and regulations of the OSSAA whose rules specifically state: A student under a discipline plan or whose conduct or character outside the school is such as to reflect discredit upon the school shall be ineligible until reinstated.

The purposes of this policy are to prevent illegal drug use, to educate students as the serious physical, mental, and emotional harm caused by illegal drug use; to alert students with possible substance abuse problems to the potential harms of illegal drug use; to help students avoid drugs; to help students get off drugs; to prevent injury, illness, and harm as a result of illegal drug use; and to strive within this school district for an environment free of illegal drug use and abuse. This policy is not intended to be disciplinary or punitive in nature. The sanctions of this policy relate solely to limiting the opportunity of any student found to be in violation of the policy to participate in any extracurricular activities. There will be no academic sanction of violation of this policy.

Illegal drug use of any kind is incompatible with participation in any extracurricular activities on behalf of the school district. For the safety, health, and well-being of the students of the district, this policy has been adopted for use by all participant students in grades 7-12.

Definitions

1. **Student athlete** or **athlete** means a member of the middle school or high school district-sponsored interscholastic sports team. This includes athletes and cheerleaders.
2. **Extracurricular** means those activities that take place outside the regular course of study in school and **participants** are those students involved in those activities.
3. **Drug use test** means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs or the metabolites thereof in a person urine.

4. **Random tests** are given monthly to participants from the pool.
5. **Random selection basis** means a mechanism for selecting students for drug testing that:
 - A. Results in an equal probability that any student from a group of students subject to the selection mechanism will be selected, and
 - B. Does not give the school district discretion to waive the selection of any student athlete or extracurricular activities participants selected under the mechanism.
6. **Follow up tests** can be monthly at random, or any time a student who has tested positive may be under suspicion of being under the influence.
7. **Illegal drugs** means any substance that an individual may not sell, possess, use, distribute, or purchase under either federal or state law. Illegal drugs include, but are not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled dangerous Substance Act, **all** prescribed and over-the-counter drugs being used for an abusive purpose.
8. **Performance-enhancing drugs** include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The term "performance-enhancing drugs" does not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions.
9. **Positive**, when referring to a drug use test administered under this policy, means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.
10. **Reasonable suspicion** means a suspicion based on specific personal observations concerning the appearance, speech, or behavior of a student athlete or extracurricular participant, and reasonable inferences drawn from those observations in the light of experience. Information provided by a reliable source, if based on personal knowledge, shall constitute reasonable suspicion. In the context of performance-enhancing drugs, reasonable suspicion specifically includes unusual increases in size, strength, weight, or other athletic abilities.
11. **Self-referral** is when a participant believes he/she will test positive for illegal or performance-enhancing drugs, prior to submission for a drug test under this policy, so notifies the principal, athletic director, coach, or sponsor of such belief.

Student participants in extracurricular activities shall be provided with a copy of this policy and an extracurricular activities student drug testing programs consent form that must be read, signed, and dated by the student, parent or custodial guardian, and coach/sponsor before a participant student shall be eligible to practice in any extracurricular activity. The consent shall provide a urine sample (a) as chosen by the random selection basis; and (b) at any time requested based on reasonable suspicion to be tested for illegal or performance-enhancing drugs. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed consent form.

Drug use testing for extracurricular participants will also be chosen on a monthly selection basis from a list of all extracurricular participants in off-season or in-season activities. The school district will

determine a monthly number of students' names to be drawn at random to provide a urine sample for drug use testing for illegal or performance-enhancing drugs.

In addition to the drug test required above, any extracurricular participant may be required to submit to a drug use test for illegal drugs or performance enhancing drugs or the metabolites thereof at any time upon reasonable suspicion by the athletic director, principal, sponsor, or coach of the student.

Any drug use test required by the school district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the school district that uses scientifically validated toxicological methods. The professional laboratory shall be required to have detailed, written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

All aspects of the drug testing program, including the taking of specimens, will be conducted to safeguard the personal and privacy rights of students to a maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility with an enclosed stall or stalls. The athletic director/sponsor shall designate a coach or other school employee of the same sex as the student to accompany the student to a restroom or other private facility. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the athletic director/sponsor who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications he/she has taken or is taking or any other legitimate reasons for having been in contact with illegal drugs or performance-enhancing drugs in the preceding 30 days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the 24 hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope.

If the initial drug use test is positive the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six months or to the end of the school year whichever is shorter. Student records will be retained until the end of the school year.

Confidentiality

If the drug use test for any student has a positive result, the laboratory will contact the athletic director or designee with the results. Procedures for maintaining confidentiality will be practiced. The athletic director or designee will contact the principal, the student, the head coach/sponsor, and the parent or custodial guardian of the student and schedule a conference. At the conference, the student will be given the opportunity to submit additional information to the athletic director or to the lab. The school district will rely on the opinion of the laboratory that performed the test in determining whether the positive test was produced by other than consumption of an illegal drug or performance-enhancing

drug. Under no circumstances will results from a drug test under this policy be turned over to any law enforcement officer or agency.

Appeal

A student who has been determined by the athletic director or designee to be in violation of this policy shall have the right to appeal the decision to the superintendent or the superintendent's designee(s). Such appeal must be lodged within five business days of notice of the initial report of the offense as stated in this policy, during which time the student will remain eligible to participate in any extracurricular activities. The superintendent or designee(s) shall then determine whether the original finding was justified. There is no further appeal right from the superintendent's decision and the decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the superintendent, which shall be final and non-appealable.

Consequences

1. **First positive test.** The student will be suspended from participation in all extracurricular activities for two weeks. The student and parent/guardian must attend counseling two times during the suspension period and one follow-up session. Counseling will consist of 2 sessions with the Fairland Public Schools counselor. Follow-up sessions will be with this counselor also.
2. **Second positive test.** The student will be suspended from participation in any extracurricular activity for forty-five school days.
3. **Third positive test.** The student will be suspended from participation in any extracurricular activity for 180 school days.
4. **Self Referral.** A student who self-refers to the athletic director, principal, coach, or sponsor before being notified to submit to a drug test will be allowed to remain active in all extracurricular activities. However, the student will be considered to have committed his/her first offense under this policy, and will be required to retest as would a student who has tested positive.
5. **Refusal to submit to a drug test.** If a participant student refuses to submit to a drug test under this policy, such student shall not be eligible to participate in any extracurricular activity, including all meetings, practices, performances, and competition for 180 school days, upon completion of which, the participating student shall be subject to this policy.
6. All students who test positive will be required to retest at discretion of athletic director/principal.

SEMESTER TEST EXEMPTIONS:

A student may choose to be exempted from a semester test if he/she has the following grade/absences:

- A and 3 absences or less
- B and 2 absences or less
- C and 1 absence or less

There is no exemption if the letter grade is a D or F.

For the purpose of test exemptions, 3 tardies in a class will equal one absence.

Students who owe money or books to the school will not be allowed to be exempt from testing

ONLINE INSTRUCTION

Online instructional programs offered for instructional purposes and/or high school credit shall be approved by and under the supervision of the Fairland board of Education. The proposed course(s) may be evaluated by the State Department of Education.

Definitions

Synchronous Instruction occurs when the instructor and student's primary interactions are in real-time. Regular classroom instruction is synchronous instruction, as well as two-way interactive video. Web-based instruction that requires real-time interaction between student(s) and instructor as the primary format of instruction is also synchronous instruction.

Asynchronous instruction is not dependent on instructor and student interaction in real time. Asynchronous instruction allows the student to engage in learning activities anywhere at any time. For instruction to be considered asynchronous, the primary format of instruction does not depend on real-time interaction of the participants.

Supplemental online course is an online program that allows students who are enrolled in a public school to supplement their education by enrolling part time in online courses that are educationally appropriate for the student, which are equal to the equivalent of classroom instruction time required by student attendance and participation in the district.

Educationally appropriate means an instructional delivery method best suited for an individual student to advance the student's academic standing toward meeting the learning expectations of the district and State graduation requirements for the student. The determination of educationally appropriate will be made at the local school district level.

Web-based instruction uses the World Wide Web as the primary medium of instruction, with a computer serving as the primary tool of instruction. Web-based instruction may be synchronous or asynchronous. Two-way interactive video instruction provides for real-time (synchronous) interaction between student(s) and instructor by means of an electronic medium that provides for both audio (sound) and video (sight) signal. Students and instructors participating in two-way interactive video instruction may both see and hear each other in an approximation of real time

Guidelines

Prior to offering an online instructional course, the board of education shall comply with the following guidelines recommended by the State Department of Education:

1. Web-based and two-way interactive video instruction shall be viewed as methods by which the school district can expand the course offerings and access to instructional resources. These technologies should not be viewed solely as substitutes for direct, fact-to-face student and teacher interactions, but as a means of expanding the ability of the district to bring the world of knowledge to the students.
2. The board of education will grant students credit for completion of courses offered by means of online instruction. School district policies governing grading scales and credits earned shall be applied to Oklahoma Supplemental Online Course Program courses under the same criteria as courses offered by the school district. A grade assigned for course credit that was completed through the supplemental online program shall be treated the same as any other course offered by the district.
3. Only students who are regularly enrolled in this district will be granted access to supplemental online courses.
4. Requests for enrollment in supplemental online courses shall be as follows:
 - a. Interested students shall be required to fill out a request for enrollment in supplemental online course(s) form.

- b. The principal or designee shall evaluate the application and determine whether the supplemental online course is educationally appropriate for the student.
- c. If the supplemental online course is not deemed to be educationally appropriate, notification shall be provided to the student in writing as the reasons in support of the principal's recommendation and the student shall be afforded the opportunity to appeal the principal's decision to the board of education. The decision of the local board with regard to whether a course is educationally appropriate is final and nonappealable. A copy of the notification shall be provided to the Director of Instructional Technology at the State Department of Education.
5. If enrollment in the supplemental online course is allowed, the principal shall appoint a certified staff member to serve as the building level contact person to assist students enrolling in on-line courses and to serve as a liaison to the on-line teachers and provider(s). Students shall have a grace period for withdrawal from a supplemental online course of fifteen (15) calendar days from the first day of a supplemental online course enrollment without academic penalty. A written request for withdrawal should be provided to the principal from the student prior to the expiration of the fifteen (15) day period.
6. Students earning credit by means of online instruction shall participate in required state-level academic assessments in the same manner as other regularly enrolled students within the district. No student shall be allowed to participate in these assessments at a place other than the school site at which the student is enrolled.
7. Courses offered for credit by means of online instruction shall be aligned with the required state adopted curriculum standards.
8. Student progress shall be monitored on a **weekly** basis by the supplemental online course provider. Attendance/participation in a supplemental online course shall be monitored in accordance with local district policy and determined by documented student/teacher/course interaction that may include, but is not limited to, online chats, emails, posting/submission of lessons. The student may be counted "present" or "in attendance" when the supplemental online course provider provides evidence of student/teacher/course interaction that demonstrates student progress toward learning objectives and demonstrates regular student engagement in course activity. Supplemental online course providers shall make available to students, parents, and the school district reports that reflect daily attendance/participation, progress reports, and grades. Such attendance/participation reports, progress reports, and grades shall be provided on a regular weekly basis to parents and the school district via electronic format. The district will review progress reports and grades twice per month.
9. The security of individual student data and records shall be maintained and receive the same protection afforded students under state and federal laws. No individual student data obtained through participation in online instruction courses shall be used for any purposes other than those that support the instruction of the individual student.
10. District level aggregated data obtained through participation in online instruction courses shall be utilized for educational purposes only and shall not be provided to commercial entities.
11. All federal and state statutes pertaining to student privacy, the posting of images on the World Wide Web, copyright of materials, Federal Communications Commission rules pertaining to the public broadcasting of audio and video, and other such issues shall be adhered to by the district.
12. Contractual agreements shall be established between the school district and parent(s), or legal guardian, of students participating in alternative instructional delivery system courses prior to the beginning of instruction. These contracts may address such issues as grading criteria, time allotted for course completion, student attendance, and the responsibility for course costs and equipment.
13. Instructors of online courses shall be: (a) certified in Oklahoma or another state to teach in the content area of the course offered, or (b) a faculty member at an accredited institution of higher education, possessing the specific content expertise necessary to teach the course.
14. Students at remote sites who participate in the online courses offered by the district will be responsible for providing their own equipment and Internet access.
15. Annually, the board of education shall establish fees or charges for the provision of alternative instructional delivery system courses. The district shall not be liable for payment of any fees or charges for any online course for a student who has not complied with district policies and procedures.
