All eligible children with disabilities beginning at age of 3, who are residents of the Fairland Public Schools District, have a right to a Free Appropriate Public Education (FAPE) as mandated by the IDEA Act of 2004. The Specific special education related services for children ages 3-21 are determined per child by the Individualized Education Program (IEP) team.

A multidisciplinary team of professionals will be involved in the evaluation process. The eligibility team will determine the severity of the disability through the evaluation process, and for school age children, if the disability adversely affects the child's educational performance.

Services for infants and toddlers (ages 0-3) who are suspected of having disabilities are provided through the Sooner Start Early Intervention Program. IF you suspect your infant or toddler has a disability, contact:
